EPA Notices for hazardous substance

EPA Notices contain many of the rules you must follow for managing hazardous substances. The Notices and some accompanying guidance are listed here.

The following EPA Notices on hazardous substances were published on 1 December 2017. The Notices contain the rules for managing hazardous substances and explain what is needed.

See the [What rules have changed?](#) section for more information about when these Notices come into force for group standards and for individual approvals of hazardous substances.

If you are going to use a hazardous substance in a workplace, consult with WorkSafe New Zealand to ensure you are meeting their requirements.

Hazardous Substances (Minimum Degrees of Hazard) Notice 2017
